Channel Material Stainless Steel

Grates longer than 1500mm supplied in sections. Tile Inserts longer than 1200mm supplied in sections. Channels over

3000mm supplied in sections with joiner. +/-2mm tolerance on

## 38PS40 Linear Drain

This is our Punched Slot grate for use with the 38G90 and 38G100 Special Assembly drain.

A 38mm wide UPVC channel is connected via downpipes at 200mm intervals to sockets in a 90mm or 100mm drain below. This allows the channel to be installed level while the drainpipe is given sufficient fall to be self-cleaning.

Please be aware that depending on the installation environment, for a pool installation or close to a surf beach, you may need to have your stainless steel grates electropolished.

This unique drainage system was recognised for its innovation by a DesignMark at the Australian International Design Awards.

## **SPECIFICATIONS + DIMENSIONS**

Channel Width Channel Depth Length(s) Outlet Size 38mm 40mm 900mm 1000mm 1200mm 1500mm N/A

## STORMTECH COLOUR FINISHES

Electroplate finishes subject to natural variation with time and local environment. Factors such as pools/surf beaches may require electropolishing. Contact us for suitability.
